1 Purpose & Scope

This Pre-ISO Self-Assessment Checklist allows startups and growing businesses to measure their current operational practices against the requirements of ISO 9001:2015 — the world's leading quality management standard. Completing this assessment will identify gaps, prioritize remediation efforts, and prepare your organisation for a formal ISO 9001 gap assessment or certification audit.

> 📋 **HOW TO USE:** *For each clause: (1) check the box when reviewed, (2) set STATUS to COMPLIANT / PARTIAL / NON-COMPLIANT / NOT ASSESSED, (3) describe your gap or the evidence that demonstrates compliance, (4) rate priority for remediation. This is a self-assessment tool — scores are for internal improvement, not for external audit submission.*
